OBJECT: COMPANY STATEMENT CONCERNING COVID-19 SITUATION

Dear Customer,

Here below we report all the specific measures we have put in place to safeguard the health of employees and ensure the complete functionality of the company:

- increased the level of attention to staff hygiene with the relative supply of hand sanitizing gels and soaps;
- releasing of ministerial brochures with information regarding good practices to be adopted;
- interdiction to come to the workplace for those who have any symptoms of cold/ flu/cough;
- obligation to leave the workplace for those who have any symptoms of cold/ flu/cough;
- limitation of all business travel;
- postponement of all meetings not strictly necessary, both internally and with subjects external to the company (suppliers, consultants, etc ..);
- request to suppliers, consultants and subjects from outside the company to wear masks and gloves in order to avoid possible contagions;
- our drivers have been equipped with face masks and gloves, which must be worn during delivery in your plant. Specific disposals from customers have been implemented;
- external drivers passing through our sites are obliged to remain on their vehicle or, if equipped with a face mask and gloves, they may participate in loading /unloading operations at a safe distance;
- measurement of body temperature with infrared thermometer at company gate;
- providing protection masks and gloves for the employees;
- implementing smart working solutions in different offices;
- environmental cleaning and disinfection against virus in all facilities;
- cleaning of the goods to be shipped to customers
- from July is in function a specific control gate. Automatic check of body temperature/ face mask detection / hands cleaning and clothes disinfection is certified for all people accessing to our facilities.
